

**My name is Sadia Azad. I've been a CSA at CLT since 2015 and a shop steward since 2016. I previously served on the e-board as the Area Rep for MYR and SAV from 2017-2020. I served as acting secretary for a few months, from the end of 2020 into the beginning of 2021. I am familiar with the unique challenges our outlying stations face and the obstacles we encounter daily at CLT as the second largest hub.**

**As your president, I would strive to improve working conditions for all of us in customer service. I want to provide a clear line of communication from the national to the e-board to the membership. The membership must know what the e-board is doing for them and be able to engage with the union, whether in serving as a shop steward, on the e-board, on the various committees, and so much more. Your president should fight for your rights and hold management accountable for violating any member in any way. Above all else, I believe that we, as union sisters and brothers, should always stand united to show our strength.**

**My track record as a reliable union representative and my dedication to the membership for the past seven years speaks for itself. I would be honored to have your vote as we try to make some changes, not just at CLT but for our entire local. You are the union!**
